

RESTORATION PROJECTS AND DONOR SUPPORT

Restoration work can disturb soil.

You organize environmental projects and rely on tools, donors and field participants. Actual restoration duties and release exposures need accepted terms, with volunteer accident benefits considered separately from third-party liability.

RISKS WORTH DISCUSSING

- 01 Soil releases during restoration work
- 02 Third-party injuries at project sites
- 03 Compromised donor or supporter records

Coverage worth discussing

Environmental liability

Covered cleanup under accepted soil-release terms.

Inland marine

Insured project tools under accepted field-equipment terms.

General liability

Covered third-party injury from accepted restoration activities.

Cyber liability

Covered donor-data breach response and privacy claims.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
