

SPILL RESPONSE, FIELD METHODS AND CLEARANCE

A cleanup job can spread pollution.

You respond to spills or perform excavation and abatement. Declare substances, methods and any clearance duties; accepted pollution and professional terms must fit the work rather than promise a clean site.

RISKS WORTH DISCUSSING

- 01 Pollutants spreading during cleanup
- 02 Claims over methods or clearance work
- 03 Crew injuries involving hazardous sites

Coverage worth discussing

Environmental liability

Cleanup under accepted site/transport release terms.

Workers compensation

Benefits for qualifying cleanup injuries/illness.

Inland marine

Insured portable pumps, vacuums and instruments.

Professional liability

Claims from accepted methods/clearance assessment.

Commercial auto

Road liability for accepted cleanup-vehicle use.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
