

EIFS INSTALLATION CONTRACTOR

Water can collect behind the cladding.

Discuss the EIFS systems you install and moisture claims after completion, alongside scaffold work and design duties.

RISKS WORTH DISCUSSING

- 01 Moisture intrusion behind cladding
- 02 Long-tail completed-operations claims
- 03 Falls from scaffolds and lifts

Coverage worth discussing

General liability

Helps with injury or damage from EIFS work.

Professional liability

Helps with negligence claims involving design.

Commercial auto

Covered road accidents while hauling cladding supplies.

Workers compensation

Provides benefits for injuries while on scaffolds.

Inland marine

Protects mixers and scaffold systems in transit.

Umbrella liability

Adds limits above primary liability policies.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
