

AQUACULTURE OPERATIONS

Sudden stock mortality

Your ponds or pens hold fish at different growth stages. Protecting live stock calls for terms beyond repairing life-support machinery.

RISKS WORTH DISCUSSING

- 01 Sudden stock mortality
- 02 Escapement and containment failure
- 03 Life-support equipment breakdown

Coverage worth discussing

Equipment breakdown

Repairs for pumps following a covered internal failure.

Environmental liability

Cleanup costs for covered environmental pollution liability events.

Commercial property

Insured tanks and buildings after covered physical damage.

General liability

Liability claims involving visitors at your farm facility.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
