

FLORAL PRODUCTION

Growing-flower loss

You grow flowers for florists and markets on tight schedules. Growing plants, harvested stems and cooling equipment create distinct insurance questions.

RISKS WORTH DISCUSSING

- 01 Growing-flower loss
- 02 Cut stems in cooling and storage
- 03 Order timing and rejection

Coverage worth discussing

Commercial property

Repairs for greenhouses or coolers after covered damage.

General liability

Claims for covered injuries occurring on your premises.

Equipment breakdown

Covered internal failures of irrigation or cooling systems.

Inland marine

Declared harvested flowers after covered transit losses.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
