

FROZEN PRODUCE PROCESSING

Freezer failure can halt a fruit run.

You process seasonal fruit and freeze it for later supply. Machinery repair, temperature-sensitive stock and contaminated lots need distinct accepted plant and product terms.

RISKS WORTH DISCUSSING

- 01 Refrigeration failure spoiling stock
- 02 Pathogens triggering produce recalls
- 03 Ammonia refrigeration chemical releases

Coverage worth discussing

Commercial property

Insured freezing assets and stock after covered damage.

Products liability

Covered resulting harm from supplied frozen fruit.

Equipment breakdown

Covered internal failures of accepted blast-freezing machinery.

Environmental liability

Covered cleanup under accepted ammonia-release terms.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
