

FUEL-OIL STORAGE AND BLENDING

A failed tank can release heated oil.

You store and blend distillate and residual fuel oils for barge or tanker dispatch. A leak or rack spill requires specific environmental protection.

RISKS WORTH DISCUSSING

- 01 Bulk tank failure and releases
- 02 Loading rack and transfer spills
- 03 Heated system fire ignition

Coverage worth discussing

Commercial property

Insured tanks and plant after covered physical damage.

Equipment breakdown

Covered internal failures of accepted transfer machinery.

Products liability

Covered resulting harm from supplied fuel oil.

Environmental liability

Covered cleanup from accepted fuel-oil releases.

General liability

Covered third-party harm from accepted site duties.

Workers compensation

Work-injury benefits for eligible plant employees.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
