

FUEL TERMINALS AND DISTRIBUTION

A terminal fire can damage bulk stock.

You buy, store, and distribute fuel through terminals and tanker fleets. Operational leaks, collisions, or fraud create distinct property and liability exposures.

RISKS WORTH DISCUSSING

- 01 Terminal fire and explosion
- 02 Distribution and loading spills
- 03 Inventory theft and fraud

Coverage worth discussing

Commercial property

Insured terminal assets and declared fuel stock.

Commercial auto

Covered road liability for declared distribution vehicles.

Motor truck cargo

Accepted fuel interests after covered transit loss.

Environmental liability

Covered cleanup under accepted fuel-release terms.

Crime insurance

Covered employee theft involving insured fuel or funds.

Umbrella liability

Extra limits above expressly covered underlying liabilities.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
