Coverage worth discussing

General liability

Address site injury or gas explosion claims.

Workers compensation

Support crew members injured at excavation sites.

Surety bonds

Meet specific project or contract requirements.

Environmental liability

Help with pollution or soil cleanup costs.

Inland marine

Protect your fusion and testing equipment.

Umbrella liability

Provide higher limits for explosion claims.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
