

ORE RECOVERY AND PRECIOUS-METAL HANDLING

Recovered gold can attract theft.

You extract ore, run recovery equipment and handle valuable recovered metal. Actual doré or bullion interests need express insurance acceptance alongside plant machinery and defined chemical or tailings-release terms.

RISKS WORTH DISCUSSING

- 01 Theft involving recovered precious metals
- 02 Chemical or tailings releases
- 03 Internal recovery-equipment failures

Coverage worth discussing

Crime insurance

Defined theft involving expressly insured precious metals.

Commercial property

Insured processing plant after covered physical damage.

Environmental liability

Covered cleanup under accepted chemical-release terms.

Equipment breakdown

Covered internal failures of accepted recovery machinery.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
