

CROP RECEIVING AND PROCESSING

Dryer failure halts harvest supply

You receive, condition and ship crops through elevators. Dust fires, stored-grain deterioration and handling failures can interrupt harvest supply.

RISKS WORTH DISCUSSING

- 01 Dust ignites
- 02 Stored crops deteriorate
- 03 Handling equipment stops

Coverage worth discussing

Commercial property

Insured bins, elevators and declared commodity stocks.

Inland marine

Declared bulk crops in covered truck or rail transit.

Workers compensation

Employee injury benefits for bin or machinery duties.

Equipment breakdown

Repair qualifying drying and handling drives.

Environmental liability

Covered releases involving declared dust or fumigants.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
