

GREEN BUILDING INSTALLATION

A roof penetration can let water inside.

Review solar or energy-system installation alongside any design advice, including component transit and rooftop work.

RISKS WORTH DISCUSSING

- 01 Roof penetrations and water intrusion
- 02 Electrical and battery fire hazards
- 03 Loss of specialized components

Coverage worth discussing

General liability

Covered injury or roof-leak damage from installation.

Workers compensation

Benefits for rooftop or electrical crew injuries.

Commercial auto

Covered accidents involving component-hauling trucks.

Professional liability

Covered errors in accepted design or modeling work.

Inland marine

Insured panels or batteries at sites or in transit.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
