The Southern Agency
Insurance & Bonds

CONTROLLED ENVIRONMENT PLANT PRODUCTION

Boiler failure can affect several batches.

Your greenhouse batches share heating and irrigation systems. Repairing a structure or boiler is a different insurance question from losing growing plants.

RISKS WORTH DISCUSSING

01 **Heating or climate-control failure**

02 **Storm or snow-load collapse**

03 **Chemical-handling injuries**

GREENHOUSE GROWER INSURANCE

Coverage worth discussing

Commercial property
Insured greenhouse structures and declared growing benches.

General liability
Provides liability for visitor and delivery injuries

Equipment breakdown
Covered internal failures of boilers or pumps.

Workers compensation
Provides benefits for employee maintenance injuries

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 **Listen**
We review your operations, coverage and past claims.

02 **Assess**
We look at hazards and ways to reduce risk.

03 **Build**
We compare carriers, premiums and audit terms.

04 **Support**
We revisit coverage as your work changes.
