The Southern Agency
Insurance & Bonds

FASTENER MANUFACTURING

A bad batch can spread through many assemblies.

Automated lines convert metal stock into millions of fasteners. Heat treatment and threading must remain consistent for safety.

RISKS WORTH DISCUSSING

01 Mass-produced batch defects

02 Automated line breakdown

03 Raw material supply losses

HARDWARE AND FASTENER FACTORY INSURANCE

Coverage worth discussing

Products liability
Covers injury or damage caused by faulty fasteners.

Equipment breakdown
Repairs headers and threaders after internal failure.

Commercial property
Restores wire stock, machinery, and factory assets.

Workers compensation
Provides benefits for production-line injuries.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 **Listen**
We review your operations, coverage and past claims.

02 **Assess**
We look at hazards and ways to reduce risk.

03 **Build**
We compare carriers, premiums and audit terms.

04 **Support**
We revisit coverage as your work changes.
