FORAGE PRODUCTION AND CUSTOM BALING

Fire and machinery accidents threaten forage

You cut, bale and store forage, sometimes for others. Heating hay, damaged machinery and loading injuries can affect the season.

RISKS WORTH DISCUSSING

01 **Barn fire from spontaneous combustion**

02 **Mechanical failure and field-use damage**

03 **Worker injuries during bale loading**

HAY FARM INSURANCE

Coverage worth discussing

Commercial property
Insured barns and declared hay after covered loss.

Inland marine
Declared mowers or balers after covered physical damage.

Equipment breakdown
Qualifying internal failures of accepted baling systems.

Workers compensation
Employee injury benefits for eligible baling crews.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 **Listen**
We review your operations, coverage and past claims.

02 **Assess**
We look at hazards and ways to reduce risk.

03 **Build**
We compare carriers, premiums and audit terms.

04 **Support**
We revisit coverage as your work changes.
