

WASTE STREAMS, TRANSPORT AND DESTINATIONS

A waste release can trigger cleanup.

Your work may include collecting, hauling, treating or disposing of hazardous waste. Define actual streams, sites, destinations and dates; accepted release cleanup differs from routine disposal obligations.

RISKS WORTH DISCUSSING

- 01 Hazardous releases during transport
- 02 Chemical reactions at waste facilities
- 03 Claims involving disposal destinations

Coverage worth discussing

Environmental liability

Cleanup under expressly accepted waste-operation terms.

Workers compensation

Benefits for qualifying chemical-handling injuries.

General liability

Claims under accepted non-auto waste operations.

Commercial auto

Road liability for accepted hazardous-waste hauling.

Commercial property

Insured treatment/storage facilities and equipment.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
