

HEATING-OIL DELIVERY AND SERVICE

An overfill can release oil inside a home.

You deliver heating oil and provide burner maintenance. Navigating driveways and managing fuel systems present ongoing risks of spills and vehicle accidents.

RISKS WORTH DISCUSSING

- 01 Tank overfills and indoor leaks
- 02 Faulty burner and service work
- 03 Delivery truck and driveway accidents

Coverage worth discussing

Commercial auto

Covered road liability for declared oil-delivery trucks.

General liability

Covered third-party harm from accepted burner service.

Environmental liability

Covered cleanup under accepted delivery-release terms.

Commercial property

Insured tanks or offices after covered physical damage.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
