TRAIN CONTROL AND CONCENTRATED RAIL ASSETS

A signal fault can stop trains.

Your high-speed service depends on traction power and train control. Declare passenger, infrastructure and safety-system duties; rail injury terms, physical failures and fare-data response are distinct.

RISKS WORTH DISCUSSING

01 **High-speed collision or derailment**

02 **Internal traction/signal failures**

03 **Exposure of ticketing records**

HIGH-SPEED RAIL OPERATOR INSURANCE

Coverage worth discussing

General liability
Claims under expressly accepted passenger-rail terms.

Equipment breakdown
Internal failures of accepted traction/control systems.

Umbrella liability
Limits above expressly scheduled rail liability.

Commercial property
Expressly insured trainsets and infrastructure.

Cyber liability
Covered ticketing-data response and privacy claims.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 **Listen**
We review your operations, coverage and past claims.

02 **Assess**
We look at hazards and ways to reduce risk.

03 **Build**
We compare carriers, premiums and audit terms.

04 **Support**
We revisit coverage as your work changes.
