

MOBILITY AIDS, HOME SETUP AND RECORDS

A faulty mobility aid can cause a fall.

You deliver and demonstrate wheelchairs, lift chairs or other aids in homes. Actual product and setup duties, rental ownership and any patient/billing records need acceptance distinct from delivery-vehicle protection.

RISKS WORTH DISCUSSING

- 01 Resulting injuries involving mobility aids
- 02 Damage during in-home delivery or setup
- 03 Breaches of patient or billing records

Coverage worth discussing

Products liability

Resulting injury from expressly accepted mobility products.

General liability

Resulting harm from accepted delivery/setup activities.

Inland marine

Insured aids under accepted transit/rental-placement terms.

Cyber liability

Covered response involving included patient/billing data.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
