

AQUATIC FACILITY OPERATIONS

A filtration failure can close aquatic areas.

You operate indoor pools and slides requiring specialized treatment systems. A pump failure can force closures, while decks expose guests to serious slip hazards.

RISKS WORTH DISCUSSING

- 01 Guest collisions in aquatic areas
- 02 Chemical spills or air quality issues
- 03 Filtration system internal mechanical failure

Coverage worth discussing

General liability

Covered guest-injury claims under accepted aquatic-activity terms.

Equipment breakdown

Covered internal failures of accepted pumps or filtration.

Workers compensation

Work-injury benefits for eligible lifeguards or maintenance staff.

Commercial property

Insured buildings and declared aquatic equipment.

Environmental liability

Covered claims from accepted chemical-release conditions.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
