

KNITTING MILL OPERATIONS

One drive failure can stop a knitting bank.

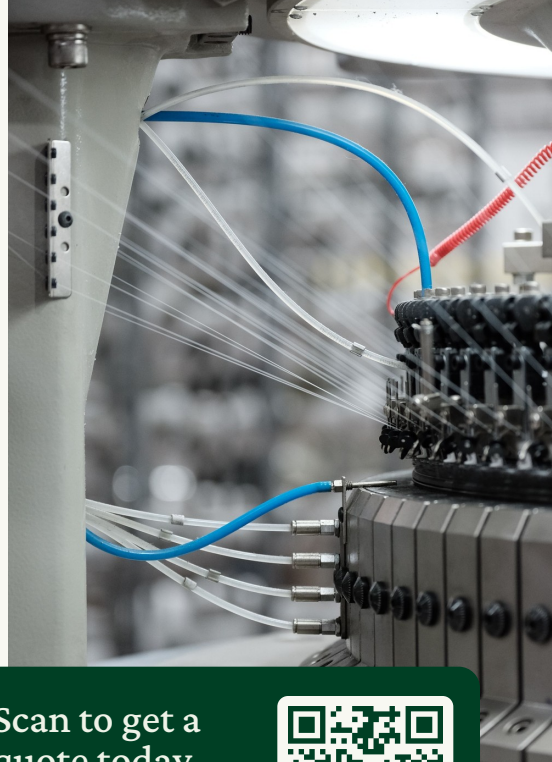

You produce garments using fast-running machines. Inventory and machinery failures can halt production timelines.

RISKS WORTH DISCUSSING

- 01 Knitting machine and needle damage
- 02 Equipment breakdown halting production
- 03 Yarn and finished goods fire loss

Coverage worth discussing

Commercial property

Physical protection for machines and garment inventory.

Products liability

Covered harm to others from supplied knit garments.

Equipment breakdown

Covers internal mechanical failure of knitting drives.

Inland marine

Protects yarn and fabric at outside finishers.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
