

WORKING CELLS, LEACHATE AND LANDFILL GAS

Leachate can reach neighboring land.

Your landfill manages waste cells, leachate and gas alongside heavy machines. Declare active, closed and acquired areas and relevant dates; historical contamination and closure duties need explicit review.

RISKS WORTH DISCUSSING

- 01 Leachate migrating beyond insured cells
- 02 Landfill-gas fire or explosion
- 03 Injuries around working-face machinery

Coverage worth discussing

Environmental liability

Cleanup under accepted landfill-release terms.

Equipment breakdown

Internal failures of accepted pumps/blowers.

General liability

Claims under expressly accepted landfill operations.

Commercial property

Insured buildings and declared gas/leachate assets.

Workers compensation

Benefits for qualifying landfill work injuries.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
