SWITCHES, EMERGENCY CALLS AND OUTSIDE PLANT

A switch fault can interrupt calls.

You maintain voice switches and distribution plant. Actual emergency-call duties need explicit service and injury terms; physical plant, billing records and wear-related replacement are separate interests.

RISKS WORTH DISCUSSING

01 **Voice-switch internal equipment failures**

02 **Storm damage to accepted outside plant**

03 **Claims involving emergency-call service errors**

LANDLINE PHONE PROVIDER INSURANCE

Coverage worth discussing

Commercial property
Insured accepted voice plant after covered physical loss.

Equipment breakdown
Covered internal failures of eligible switching systems.

Professional liability
Claims under accepted voice/emergency-service terms.

Cyber liability
Covered subscriber-record response and privacy claims.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 **Listen**
We review your operations, coverage and past claims.

02 **Assess**
We look at hazards and ways to reduce risk.

03 **Build**
We compare carriers, premiums and audit terms.

04 **Support**
We revisit coverage as your work changes.
