The Southern Agency
Insurance & Bonds

STREET INTERSECTIONS AND ELECTRIC TRANSIT

A turning car can strike a tram.

Your light-rail system shares intersections with road traffic. Identify owned and leased trains, platforms and power assets; actual rail operations and fare records need their own accepted terms.

RISKS WORTH DISCUSSING

01 Collisions at shared intersections

02 Passenger falls at platforms

03 Internal traction/power failures

LIGHT RAIL TRANSIT SYSTEM INSURANCE

Coverage worth discussing

General liability
Claims under expressly accepted rail/passenger terms.

Commercial property
Expressly insured trains and transit infrastructure.

Equipment breakdown
Internal failures of accepted traction/signal systems.

Cyber liability
Covered fare-record response and privacy claims.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 **Listen**
We review your operations, coverage and past claims.

02 **Assess**
We look at hazards and ways to reduce risk.

03 **Build**
We compare carriers, premiums and audit terms.

04 **Support**
We revisit coverage as your work changes.
