

RENTAL LINEN STOCKS AND DELIVERY ROUTES

Rental linens can burn at a client site.

You circulate rented linens between your plant, delivery routes and customer locations. Ownership and accepted locations matter, with physical stock loss distinguished from road liability and contamination claims.

RISKS WORTH DISCUSSING

- 01 Damage to rental stock at client sites
- 02 Road collisions during route delivery
- 03 Third-party harm from supplied textiles

Coverage worth discussing

Inland marine

Insured rental linens at expressly accepted client locations.

Commercial auto

Covered road liability for accepted linen-delivery vehicles.

Commercial property

Insured plant and on-site stocks after covered damage.

General liability

Covered third-party harm from accepted linen-supply operations.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
