

HARVESTING AND CREW HOUSING

Severe injuries and machinery damage

You oversee timber harvesting, machinery, and remote housing. Falling timber and hydraulic failures create high-hazard risks for workers and equipment.

RISKS WORTH DISCUSSING

- 01 Crew injuries from felling operations
- 02 Heavy equipment damage and overturn
- 03 Field-based machinery breakdown events

Coverage worth discussing

Workers compensation

Employee injury benefits for accepted felling duties.

General liability

Covered third-party harm from accepted logging work.

Inland marine

Declared bunchers or skidders after covered damage.

Equipment breakdown

Qualifying internal failures of accepted machinery.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
