

REMOTE TOOLS, PATCHES AND RECOVERY

One bad patch can hit many clients.

You patch and monitor client networks through trusted remote tools. Actual backup and recovery duties need acceptance; client claims, your response costs and fraud losses can draw on different terms.

RISKS WORTH DISCUSSING

- 01 Faulty updates across client sites
- 02 Compromised remote-access tools
- 03 Backups that cannot be restored

Coverage worth discussing

Professional liability

Covered claims from accepted managed-service duties.

Cyber liability

Covered incident response and security/privacy liability.

Crime insurance

Defined theft/fraud involving expressly insured funds.

General liability

Covered physical claims from accepted on-site visits.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
