

## WATERFRONT OPERATIONS

# Swinging loads share a busy waterfront.

You build docks and bulkheads using floating plant. Swinging loads can strike boats and pile work may disturb local sediment.

## RISKS WORTH DISCUSSING

- 01 Over-water worker injuries
- 02 Maritime employment exposure
- 03 Floating equipment loss

# Coverage worth discussing

## General liability

Covers third-party injury from waterfront work.

## Workers compensation

Benefits under applicable shore-worker terms.

## Builders risk

Covered physical loss to unfinished docks or piers.

## Environmental liability

Covers cleanup from fuel or sediment releases.

Coverage is subject to policy terms and exclusions.

## Why The Southern Agency

### 01 Listen

We review your operations, coverage and past claims.

### 02 Assess

We look at hazards and ways to reduce risk.

### 03 Build

We compare carriers, premiums and audit terms.

### 04 Support

We revisit coverage as your work changes.
