

STONE, BLOCK AND JOB-SITE OFFLOADING

A block pallet can cause crush injuries.

You move heavy stone and block from yards to customer job sites. Loading, boom-offloading and actual mobile units need acceptance, separate from road liability and physical loss of materials in transit.

RISKS WORTH DISCUSSING

- 01 Pallet or block crush injuries
- 02 Claims involving job-site offloading
- 03 Damage to materials during accepted transit

Coverage worth discussing

Commercial property

Insured yard stock after covered physical damage.

Commercial auto

Covered road liability for accepted material-delivery trucks.

Inland marine

Accepted physical-damage terms for stone in transit.

General liability

Covered injury from accepted loading/delivery activities.

Workers compensation

Work-injury benefits for eligible yard/delivery employees.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
