

LAB SAMPLES, COOLER CUSTODY AND PRIVACY

A warm cooler can ruin samples.

You carry lab specimens under defined custody and temperature duties. Recollection and patient-injury claims need express service terms, apart from vehicle liability, biological cleanup and record privacy.

RISKS WORTH DISCUSSING

- 01 Samples ruined by temperature changes
- 02 Biological spills from broken tubes
- 03 Disclosure of patient information

Coverage worth discussing

Commercial auto

Covered road liability for accepted specimen use.

Professional liability

Claims under accepted handling/patient-injury terms.

Environmental liability

Cleanup under expressly accepted biological-release terms.

Cyber liability

Privacy response for expressly accepted patient records.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
