FIELD REPAIRS AND HEAVY-MACHINE SERVICE

A faulty repair can cause injury.

You service mining machinery in workshops and at operating sites. Actual repair duties, client-machine custody and employee assignments need terms distinguishing resulting harm from the cost of redoing a repair.

RISKS WORTH DISCUSSING

01 **Resulting harm after equipment repairs**

02 **Lost or damaged field-service tools**

03 **Mechanic injuries at mine sites**

MINE EQUIPMENT MAINTENANCE INSURANCE

Coverage worth discussing

General liability
Covered resulting harm from accepted equipment repairs.

Inland marine
Insured service tools during accepted field work.

Commercial auto
Covered road liability for accepted service vehicles.

Workers compensation
Work-injury benefits for eligible maintenance employees.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 **Listen**
We review your operations, coverage and past claims.

02 **Assess**
We look at hazards and ways to reduce risk.

03 **Build**
We compare carriers, premiums and audit terms.

04 **Support**
We revisit coverage as your work changes.
