

PROTECTIVE GEAR MANUFACTURING

A protective-gear failure can worsen a rider injury.

You make technical jackets and gloves. Review injury claims involving protective performance, textile stock and sewing work.

RISKS WORTH DISCUSSING

- 01 Armor and protective performance failure
- 02 Cut-and-sew worker injury hazards
- 03 Inventory damage from fire or smoke

Coverage worth discussing

Products liability

Covers injury claims if riding gear fails performance.

General liability

Assists with injury claims at your facility site.

Inland marine

Covers gear while held at dealer trade shows.

Commercial property

Protects your plant assets, textiles, and armor stock.

Workers compensation

Provides benefits for injured sewing plant employees.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
