INDOOR CONTROLLED CULTIVATION

Climate-system breakdown and spoilage

You cultivate mushrooms in controlled growing rooms. Machinery repairs, lost growing batches and consumer-illness claims involve different interests and triggers.

RISKS WORTH DISCUSSING

01 **Climate-system failure and crop loss**

02 **Product contamination and recall events**

03 **Substrate, compost, and runoff exposure**

MUSHROOM FARM INSURANCE

Coverage worth discussing

Commercial property
Insured growing rooms and declared fixed equipment.

Equipment breakdown
Covered internal failures of climate-control machinery.

Products liability
Covered consumer harm from supplied mushroom products.

Environmental liability
Covered releases involving declared compost or chemicals.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 **Listen**
We review your operations, coverage and past claims.

02 **Assess**
We look at hazards and ways to reduce risk.

03 **Build**
We compare carriers, premiums and audit terms.

04 **Support**
We revisit coverage as your work changes.
