

MANICURES, PEDICURES AND NAIL PRODUCTS

An infection claim can follow a service.

You work on hands and feet using shared tools, chemical products and close contact. Actual manicure, pedicure or enhancement services need treatment acceptance, separate from premises injury and retail-product harm.

RISKS WORTH DISCUSSING

- 01 Infection allegations after nail services
- 02 Skin or nail damage during treatment
- 03 Resulting harm from retail nail products

Coverage worth discussing

Professional liability

Accepted treatment liability for declared nail services.

General liability

Covered customer injury from accepted salon-premises activities.

Commercial property

Insured chairs, lamps and tools after covered damage.

Products liability

Covered resulting harm from accepted retail nail products.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
