

BEVERAGE MANUFACTURING

Label errors can follow bottled lots.

You blend and fill non-alcoholic drinks. Formula changes, contaminated ingredients and disputed labels can affect several retail lots; withdrawal costs need express terms.

RISKS WORTH DISCUSSING

- 01 Ingredient-driven batch contamination
- 02 Product recall across retail lots
- 03 Label and health-claim disputes

Coverage worth discussing

Products liability

Covered resulting harm from supplied non-alcoholic drinks.

Commercial property

Insured production assets and stock after covered damage.

Equipment breakdown

Covered internal failures of accepted blending or filling gear.

Workers compensation

Work-injury benefits for eligible beverage employees.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
