Coverage worth discussing

Commercial property

Pays for physical damage to refinery furnace assets.

Environmental liability

Addresses pollution claims from your refining chemical route.

Products liability

Covers injury claims caused by your refined metal.

Workers compensation

Covers employees working near hazardous molten metal baths.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
