The Southern Agency
Insurance & Bonds

ENGINEERED WEB PRODUCTION

Hot polymer and bonding lines create fire risks.

You form engineered fabric webs by spinning or bonding fibers. Review heated polymers, equipment failures and supplied-fabric claims.

RISKS WORTH DISCUSSING

01 Product defect in fabric webs

02 Molten polymer fire hazards

03 Extrusion line breakdown risks

NONWOVEN FABRIC MANUFACTURER INSURANCE

Coverage worth discussing

Products liability
Covered harm to others from supplied nonwoven fabrics.

Commercial property
Covers damage to your bonding equipment from fire.

Equipment breakdown
Addresses internal failures of your extrusion die sets.

Workers compensation
Covers worker injury from heated surfaces and winders.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 **Listen**
We review your operations, coverage and past claims.

02 **Assess**
We look at hazards and ways to reduce risk.

03 **Build**
We compare carriers, premiums and audit terms.

04 **Support**
We revisit coverage as your work changes.
