

NUCLEAR ADVICE AND PLANT-SITE DUTIES

A release-to-service opinion matters.

You advise nuclear facilities on engineering or regulatory matters. Nuclear-related work, site duties and radiation terms need express acceptance across the actual advisory, worker and data interests.

RISKS WORTH DISCUSSING

- 01 Allegedly deficient technical advice
- 02 Claims over accepted plant-site duties
- 03 Sensitive technical-report data incidents

Coverage worth discussing

Professional liability

Claims under expressly accepted nuclear-advisory service terms.

General liability

Covered nonprofessional harm at expressly accepted locations.

Workers compensation

Eligible employee benefits for expressly accepted duties.

Cyber liability

Covered response involving expressly accepted technical data.

Commercial auto

Covered road liability for expressly accepted business travel.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
