

SEASONAL WHOLESALE OPERATIONS

# Greenhouse climate systems malfunction

You manage living plants and supplies using greenhouses. A temperature failure can harm stock or cause chemical spills.

---

RISKS WORTH DISCUSSING

- 01 Living stock is lost
- 02 Different goods need protection
- 03 Chemicals escape

# Coverage worth discussing

## Commercial property

Insured greenhouse assets and expressly accepted plants.

## Inland marine

Accepted plant stocks after covered transit losses.

## General liability

Addresses covered visitor or delivery accidents.

## Environmental liability

Response costs for covered, declared chemical releases.

Coverage is subject to policy terms and exclusions.

## Why The Southern Agency

### 01 Listen

We review your operations, coverage and past claims.

### 02 Assess

We look at hazards and ways to reduce risk.

### 03 Build

We compare carriers, premiums and audit terms.

### 04 Support

We revisit coverage as your work changes.
