

PETROLEUM CUSTODY MANAGEMENT

Tank overfills can spread off site.

You receive, store and dispatch petroleum products. Tank damage, transfer releases and customer-product custody require terms matching the actual ownership and handling duties.

RISKS WORTH DISCUSSING

- 01 Transfer manifold leakage error
- 02 Tank lightning or fire damage
- 03 Stored volume contamination dispute

Coverage worth discussing

Commercial property

Insured tanks, piping or racks after covered damage.

General liability

Covered third-party harm from accepted terminal duties.

Environmental liability

Covered cleanup under accepted transfer-release terms.

Equipment breakdown

Covered internal failures of accepted transfer pumps.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
