RETAINED COPIES AND CUSTOMER RESTORES

A failed restore can hurt a client.

You retain customer files for later recovery. Accepted backup and restoration duties should match retention promises and storage vendors; customer claims, your response costs and server damage differ.

RISKS WORTH DISCUSSING

01 **Customer backups that cannot be restored**

02 **Unauthorized access to backup repositories**

03 **Ransomware incidents involving retained copies**

ONLINE BACKUP SERVICE INSURANCE

Coverage worth discussing

Professional liability
Covered claims from accepted backup/restore services.

Cyber liability
Covered repository-data response and selected restoration.

Commercial property
Insured owned servers after covered physical damage.

General liability
Covered nonprofessional office visitor injury claims.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 **Listen**
We review your operations, coverage and past claims.

02 **Assess**
We look at hazards and ways to reduce risk.

03 **Build**
We compare carriers, premiums and audit terms.

04 **Support**
We revisit coverage as your work changes.
