

LAND DRILLING RIG OPERATIONS

A rig move can damage specialized components.

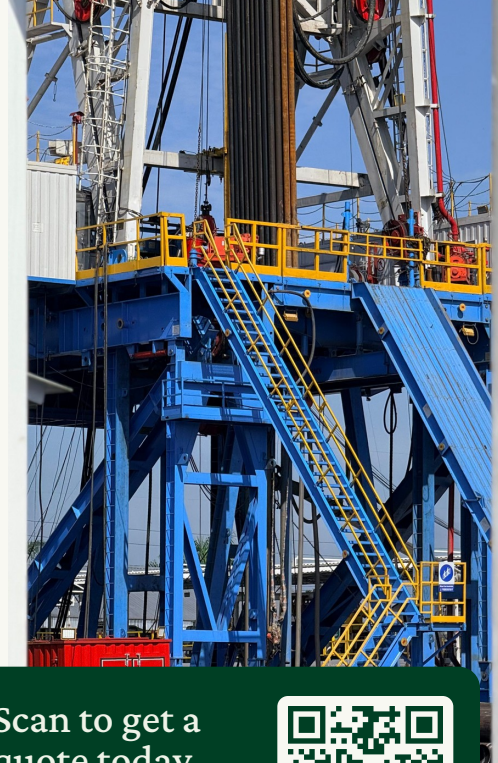

You move, erect and drill with land rigs. Rig property, downhole interests and control-of-well costs need distinct terms for accepted operations and transit stages.

RISKS WORTH DISCUSSING

- 01 Fire and collapse damage
- 02 Downhole pressure blowouts
- 03 Contamination from fluid releases

Coverage worth discussing

Inland marine

Accepted rig-property terms for declared mobile components.

Environmental liability

Covered cleanup involving accepted drilling-fluid releases.

Commercial auto

Covered road liability for declared rig-transport vehicles.

General liability

Covered third-party harm from accepted drilling duties.

Workers compensation

Work-injury benefits for eligible rig employees.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
