

CONTRACT PACKING AND LABELING

A wrong label can affect a batch.

You fill, seal and label customer products. Contamination, customer stock and withdrawal demands need terms distinct from machinery damage and resulting third-party harm.

RISKS WORTH DISCUSSING

- 01 Product contamination during packaging process
- 02 Physical damage to client inventory
- 03 Contractual liability for product recalls

Coverage worth discussing

Products liability

Covered resulting harm from accepted packing work.

Commercial property

Insured packing premises and declared stock.

Equipment breakdown

Covered internal failures of accepted packaging machinery.

General liability

Covered visitor injuries at insured packing sites.

Inland marine

Accepted client-goods interests after covered physical loss.

Workers compensation

Work-injury benefits for eligible packing employees.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
