

COATINGS, SOLVENTS AND TINTING MACHINES

Stored coatings can fuel a fire.

You store coatings and solvents and may mix custom colors. Declare chemicals and tinting duties; resulting product harm and release cleanup need distinct terms from wrong-color refunds or routine machine wear.

RISKS WORTH DISCUSSING

- 01 Releases involving stored paints or solvents
- 02 Resulting harm from sold coating products
- 03 Internal failures of tinting machines

Coverage worth discussing

Commercial property

Insured paint stock after covered physical damage.

Products liability

Resulting harm from expressly accepted coating products.

Equipment breakdown

Covered internal failures of accepted tinting machinery.

General liability

Covered customer injury from accepted store activities.

Environmental liability

Cleanup under accepted coating/solvent-release terms.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
