PASTA PRODUCTION

Flour dust can ignite near extruders.

You extrude or dry pasta and may chill fresh varieties. Dust, contaminated ingredients and failed machinery affect different plant, product and temperature-sensitive stock interests.

RISKS WORTH DISCUSSING

01 **Combustible flour dust explosion**

02 **Fresh-pasta cold stock spoilage**

03 **Extruder or dryer failure**

PASTA MANUFACTURER INSURANCE

Coverage worth discussing

Commercial property
Insured pasta-production assets after covered damage.

Products liability
Covered resulting harm from supplied pasta products.

Equipment breakdown
Covered internal failures of accepted extruders or dryers.

Workers compensation
Work-injury benefits for eligible pasta-production employees.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 **Listen**
We review your operations, coverage and past claims.

02 **Assess**
We look at hazards and ways to reduce risk.

03 **Build**
We compare carriers, premiums and audit terms.

04 **Support**
We revisit coverage as your work changes.
