

READY-TO-EAT FOOD PROCESSING

Cold-chain faults can spoil meals.

You prepare ready-to-eat foods for chilled delivery. Contamination, refrigeration faults and private-label duties need distinct terms for product claims, stock interests and actual contracts.

RISKS WORTH DISCUSSING

- 01 Pathogen contamination and recall risk
- 02 Refrigeration power loss and spoilage
- 03 Private-label contractual liability exposure

Coverage worth discussing

Products liability

Covered resulting harm from supplied prepared foods.

Equipment breakdown

Covered internal failures of accepted cooking or cooling gear.

Commercial property

Insured preparation assets and stock after covered damage.

Workers compensation

Work-injury benefits for eligible food-processing employees.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
