

BULK FUEL TRANSFER TERMINAL

Terminal equipment loading failure

You transfer bulk fuel between tanks, pipelines and vehicles. Tank fires, failed containment and loading-pump outages can interrupt throughput.

RISKS WORTH DISCUSSING

- 01 Tank fire spread
- 02 Containment system failure
- 03 Loading equipment stoppage

Coverage worth discussing

Commercial property

Insured tanks and terminal systems after covered loss.

Environmental liability

Cleanup or third-party claims from covered fuel releases.

Equipment breakdown

Covered internal failures of transfer pumps or motors.

Workers compensation

Employee injury benefits for declared transfer duties.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
