The Southern Agency
Insurance & Bonds

EXCAVATION AND WELDING SERVICES

Hot work can injure crews or damage pipes.

You perform welding and repair work on pipeline systems. Errors in these activities can lead to property damage or costly environmental cleanup requirements.

RISKS WORTH DISCUSSING

01 Welding and trenching injuries
02 Property damage from errors
03 Releases from line breaches

PIPELINE MAINTENANCE CONTRACTOR INSURANCE

Coverage worth discussing

Workers compensation
Work-injury benefits for eligible welding or excavation crews.

Inland marine
Declared owned or rented excavators after covered loss.

Umbrella liability
Extra limits above expressly covered underlying liabilities.

General liability
Covered third-party harm from accepted pipeline repairs.

Environmental liability
Covered cleanup under accepted repair-release terms.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 **Listen**
We review your operations, coverage and past claims.

02 **Assess**
We look at hazards and ways to reduce risk.

03 **Build**
We compare carriers, premiums and audit terms.

04 **Support**
We revisit coverage as your work changes.
