The Southern Agency
Insurance & Bonds

CONVERTING FILM, RESIN, AND INK

Combustible films can fuel a packaging-plant fire.

Your plant transforms film, resin and ink into packaging. High-speed machinery and flammable stock present production risks.

RISKS WORTH DISCUSSING

01 Film and resin storage fire

02 Printing and laminating chemistry

03 Web and converting injuries

PLASTIC PACKAGING PLANT INSURANCE

Coverage worth discussing

Commercial property
Covers processing equipment after physical damage.

Equipment breakdown
Addresses internal failure of critical presses.

Products liability
Helps with claims from packaging-related injury.

General liability
Covers third-party injury during plant operations.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 **Listen**
We review your operations, coverage and past claims.

02 **Assess**
We look at hazards and ways to reduce risk.

03 **Build**
We compare carriers, premiums and audit terms.

04 **Support**
We revisit coverage as your work changes.
