

HIGH-VOLTAGE CORRIDORS

High-Voltage and Ignition Risks

You maintain lines in remote corridors where energized equipment or sparks in dry terrain trigger potential wildfire.

RISKS WORTH DISCUSSING

- 01 High-voltage contact injury
- 02 Wildfire ignition from line work
- 03 Conductor tensioning failures

Coverage worth discussing

General liability

Covers third-party injury or property damage.

Inland marine

Covers cranes and tensioners for physical damage.

Workers compensation

Covers crews exposed to high-voltage hazards.

Environmental liability

Covers costs related to pollution incidents.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
